BOOK OF BOOKS

It may not be the most appropriate day of the week for comment on the Bible in the minds of some people, who think such subjects should be discussed only on Sunday, but any and every day is a good time to say a few words in connection with the Book of Books.

The 100th anniversary of the printing of the Bible in English is now being observed by the churches and it is to be regretted that the scope of the celebration is not wider so as to be inclusive of every home in the nation.

Several months ago I personally had something to say on the subject, and was gratified with the appreciative response evoked. It was not intended to be a religious article, and, in fact, was not, but pointed out the inspirational and literary value to be derived from a perusal of Holy Writ.

Another angle is emphasized in an article by Amos Alonzo Stagg, dean of American football coaches, now at the College of the Pacific at Stockton in which he puts out some salient truths, which youth would do well to read and absorb. He says:

GUIDANCE—INSPIRATION
"Being interested in young people, especially young men, for over 50 years I am glad to say a word which may help modern youth to seek guidance and inspiration from the Bible, the greatest book of all time."

"As I look back over the years and think of the men whom I have known intimately, those who have been the most forceful characters, and have had the strongest personalities have been the men who have definitely drawn their inspiration from the great Book. In my own college days I recall that the fellows who made it a habit to read and study the Bible, later became the spiritual leaders of their generation."

"My observation and experience prove beyond doubt that the Bible is a book of power. It renews the inner spirit of a man's life; it adds a plus something to character."

Church Trustees Make Inspection Tour Of Church

Trustees of the First Presbyterian church, studying plans for construction of a new, \$40,000 church in Richmond, last night made a tour of inspection of St. John's Presbyterian church in Berkeley.

The church was inspected thoroughly by the local trustees, who are studying plans and specifications for the new edifice here.

Another meeting will be held by the group on November 19 at which time further plans will be studied. Trustees who made the inspection tour last evening were Charles W. St. John, Homer Patterson, 21 W. 12th, E. M. Milner, R. E. Slattery and Rev. J. Chester White, pastor of the church.

Hagstrom Store Workers Strike

OAKLAND, Nov. 11.—UP—More than 200 workers in the Hagstrom chain of groceries walked out today demanding higher wages, shorter hours and union recognition.

Union leaders declared that many of the strikers had been working over 60 hours a week at a \$12 wage. E. O. Lide, union agent for the Retail Food Clerks' Union which seeks recognition from Hagstrom, asserted employers refused collective bargaining. Hagstrom refused to make a statement.

THE WEATHER

BAY REGION—
Cloudy Tuesday and Wednesday; at times unsettled; rain; moderate temperature; moderate west winds.
NORTHERN CALIFORNIA—
Cloudy south and central and cloudy with occasional rains north Tuesday and Wednesday; normal temperature; moderate, changeable wind off the coast.

Giant Stricken

JOHN AASEN, circus and motion picture giant, 8 feet 8 inches in height, pictured with **Elpha Morse**, a nurse at the General Hospital, is just a shadow of his former self. His great form is wasted, weakened by the abnormality that made him a perfect giant. The condition of Aasen, who once weighed 450 pounds, is described as "probably adenoma of the anterior pituitary."

Officers And Men Of Destroyer Overton Are Given Welcome

Armistice Day Program Held In This City

Richmond celebrated the 17th anniversary of the signing of the Armistice yesterday at an appropriate program held at Memorial Hall park, preceded by a parade down Macdonald avenue.

Leo Merello, prominent local attorney and war veteran, was the speaker. He sounded a warning that great nations of the world may now be on the road to a new world war.

HISTORY IS TOLD

The speaker traced the history of the World War, asserting that the real cause of the conflict was the greed of nations, secret alliances and intrigues of great nations of Europe. He pointed out that the present conflict in Africa may be the spark which will ignite the world to another bitter conflict.

After reviewing the history of (Continued on page 3)

Burglar Foiled In Attempt To Rob Restaurant

An attempted burglary of a restaurant located at 1529 Macdonald avenue was frustrated sometime Sunday night or Monday morning when the would-be burglar was frightened away from the safe.

The attempted robbery was reported to police by Mary Petrina, an employee. The burglar gained entrance by tearing through a screen door, and then smashed a window in the rear door and removed a bar.

Evidently he was frightened away because nothing was taken from the place. A small amount in silver in the cash register was not touched.

STRATO SHIP SETS RECORD A. F. Hockenbeamer Is Called

TWO FLIERS UP 14 MILES ON LONG HOP

WINNER, S. D., Nov. 11.—UP—Captains Albert W. Stevens and Orvil Anderson of the United States army today piloted the giant stratosphere balloon, Explorer II, to a new unofficial world altitude record and came down to a perfect landing.

So gentle was the grounding of the metal gondola on the bleak prairie some 56 miles east of here, that the round metal ball did not overturn. The balloonists had ascended to 14,187 feet.

RECORD ALTITUDE
At that record altitude, about 11 miles above sea level, Stevens and Anderson completed 15 scientific experiments by which the characteristics of the mysterious layer of rarified atmosphere known as the stratosphere may be studied and understood.

They came down rapidly as the waning sun allowed the 3,500,000 cubic feet of helium gas in the towering bag to shrink and lose buoyancy. Back in the heavier air near the ground, the balloonist climbed out on the rigging above the gondola.

CAUGHT BY ROPE
From there, Stevens managed to snag a long ground rope to a clump of bushes and the balloon ceased drifting. Stevens then, by releasing small amounts of gas and coiling in the slack rope, brought the gondola down to an "easy landing."

The rope caught ground about 4:13 P. M. and the balloon was grounded two minutes later.

As the gondola touched the sod, Stevens opened the great valve in the top of the bag. The helium gas slipped away and the giant balloon (Continued on page 8)

Movie Companies; Executives Are Freed By Jurors

ST. LOUIS, Nov. 11.—UP—Three motion picture companies and five of their executives, charged with using their combined \$650,000,000 assets to stifle competition by monopolizing films, were acquitted tonight by a Federal jury which deliberated less than 45 minutes.

The jurors took only two ballots. The companies, Paramount, Warner Brothers and R-K-O Radio and George J. Schaefer of Paramount, Harry M. Warner, Gradwell Sears and Herman Starr of Warners and Ned E. Depinet of RKO were cited in Federal indictments returned last January.

The Federal government charged they conspired to withhold releases from three St. Louis theaters after Warners lost a \$4,000,000 interest in the theaters by foreclosure and their management passed to Fanchon & Marco.

SOCIALITE KILLED

LAGOONA BEACH, Calif., Nov. 11.—UP—Mrs. Elinore B. Jepson, 33, socially prominent here and in Pasadena, was killed when an automobile in which she was riding collided head-on with another car on a beach highway five miles north of here. Mrs. Jepson was riding in a car driven by her brother, A. H. Bachelor, of Chicago. He and Joseph Bullard, 23, of San Diego, driver of the other car, were injured.

Richmond Man Escapes Death In Swim Pool

A Richmond barber, at a Berkeley hospital, recovering from the effects of what is believed to have been a stroke and a narrow escape from drowning in the Berkeley YMCA pool last Friday night.

Lino Francione, 29, owner of a barber shop located on Macdonald avenue between Sixth and Seventh streets, was the patient. His condition was reported last night as "improved."

RESCUE FROM POOL
According to Berkeley police, Francione was a member of a class of 12 swimming students at the Berkeley pool last Friday night. While in the water, the local man evidently became the victim of a stroke and sank to the bottom of the pool, unconscious.

Marston Manson, 1968 Los Angeles avenue, Berkeley, who was swimming at the pool, stood on the high diving platform, ready to dive. When he saw the body of the local man on the bottom of the pool, Manson shouted to attendants and dived in. He was able to bring Francione to the surface of the pool where other swimmers aided in taking the man to safety.

INHALATOR CALLED
While Walter Thomas, Y instructor, applied artificial respiration upon Francione, the Berkeley fire department inhalator crew was summoned. The crew worked over the stricken man for some time before he was pronounced out of danger.

Francione resided at 1129 Virginia street, Berkeley. He is well known in the city.

Sailor Is Held In Killing Of Unknown Woman

SAN FRANCISCO, Nov. 11.—UP—Her body mutilated and headless, a 35-year-old woman was found dead in a store room above a downtown tavern tonight.

Police arrested Henry Golubev, 23, a sailor aboard the U. S. S. New York for questioning in the case.

The woman apparently died of strangulation.

A painter, who went to the store room to obtain material, found the body. He called Charles Hill, a bartender in the tavern, Hill attempted to revive the woman but soon determined that she had been dead for some time.

Hill told police that he next saw Golubev lying in a corner of the room, blood streaming down his face. The sailor insisted that he knew nothing of the killing. Captain of Inspectors Charles Dulica said that murder charges would be filed against him.

First efforts to identify the woman were unavailing. Police began a systematic check-up of her clothing and personal articles found in the room in an effort to determine her name.

Roosevelt Pledges America To Peace

WASHINGTON, Nov. 11.—UP—President Roosevelt today pledged the United States to renewed efforts toward international peace but warned that grave world dangers and unrest exist and this nation "must and will" protect herself against aggression.

At the tomb of the unknown soldier in Arlington cemetery 17 years after the close of the world conflict, Mr. Roosevelt emphasized that America does not want war.

ILLNESS IS FATAL FOR P. G. E. HEAD

BERKELEY, Nov. 11.—UP—August Frederick Hockenbeamer, president of the P. G. & E. power company, died at the Alta Bates sanitarium here last afternoon.

The utility executive had been in the hospital for the last six weeks and since November 1 had been at the sanitarium. Death was ascribed to heart disease and general debility. He died at 4:30 P. M.

WAS 61
Hockenbeamer was 61 years of age. He had been president of the P. G. & E. since 1927. He was widely known in utility and financial circles, both here and in the east. He was recently appointed consultant professor of public utility management at Stanford University.

August Frederick Hockenbeamer was born in Lehighport, Ind., March 6, 1874. He was educated in the public schools and from 1893 to 1895 was in railway service. From 1895 to 1907 he was with the N. W. Hulse & Company, investment bankers.

WITH FIRM MANY YEARS
In 1907 he became associated with the P. G. & E., serving successively as controller, vice-president and treasurer. In 1927 he was elected president to succeed W. G. C. Creed.

He was widely known as an experienced public utility authority and his early training in the railroad business, where he started as messenger boy, gave him a thorough grasp of utility problems.

LEAVES WIDOW
His residence was at 763 Arlington avenue, Berkeley. He was a Presbyterian, Mason and member of numerous San Francisco and Berkeley social clubs.

He is survived by his wife, Ethel (Oxner) Hockenbeamer and two children, Edna and Frederick and Ernest Pryor.

Funeral arrangements have not been announced.

Clothing, Cash Are Taken From Mira Vista Home

Articles valued at several hundred dollars were stolen from the home of E. E. Lohrer, 2538 Tular avenue, El Cerrito, by a burglar sometime yesterday afternoon or early last evening.

Several suits of men's clothing, shirts, neckties, underwear, about \$15 in cash and a woman's wristwatch were taken by the burglar. In all, two suitcases filled with Lohrer's clothing were taken.

Mr. and Mrs. Lohrer left their home shortly after 1 o'clock yesterday afternoon and returned at about 9 o'clock, to find their home entered and ransacked. The burglar made his entrance by forcing a rear window with a jimmy.

Police Chief R. R. Cheek and Officer Arthur Peralta of the El Cerrito police department investigated the case. Several clues were discovered.

CAR IS WRECKED
Charles Archibald, employed at the Richmond Farm Creamery, completely wrecked his automobile and tore down several mail boxes on the San Pablo dam road last night when he went to sleep at the wheel and lost control of his car. He was uninjured. The driver reported the wreck to police early this morning.

Trade With Nations In League Will Be Suspended By Edict

ROME, Nov. 11.—UP—Premier Benito Mussolini struck a double blow of retaliation tonight against the League of Nations' effort to check off his war with Ethiopia by trade penalties.

A royal decree published in the official Gazette provides for a virtual suspension of trade with all countries applying League sanctions. It is effective next Monday—the same day the League begins economic warfare against Italy.

PROTESTS SENT
At the same time notes of protest were sent to all sanctionist powers, striking at the legal basis of League procedure.

The trade decree provides that a permit must be obtained from the Ministry of Finance before any of the list of 128 commodities may be imported. The products are produced by Britain, France and others of the 50 co-operating to oppose Italy.

DEADLINE NEAR
One week from today approximately 50 nations are due to crack down on Italian trade with a boycott of all Italian goods and embargoes against export to Italy of "key products" needed for warfare.

The dispatch of protest notes, reinforced by Premier Benito Mussolini's declaration today that Italian armed forces are "ready to defend Italy's interests in Europe, Africa or anywhere," was interpreted by diplomats as the equivalent of a warning to League members cooperating in trade sanctions.

ATTACK IS MADE
It is understood the notes long-attacked sanctions on judicial and moral grounds. Italy denies that the League acted justly or legally in voting to apply Article XVI of the covenant against Italy for the first time in its history.

The Italian government points out that the penalizing article was overlooked in the Chinese-Japanese conflict and the Gran Chaco war between Bolivia and Paraguay.

NOTE TO EGYPT
The text will be published at 1:30 (Continued on page 5)

Weather Man Is Willing To Bet It Rains Today

The man in charge of predicting the weather—who is probably known as a TMOPTW in the New Deal vocabulary—took a squint at the sky last evening, shot his cuffs, cleared his throat and came out with a bold flat statement that it's going to rain today.

The TMOPTW absolutely refused to be discouraged by the bad prediction he issued last Friday night when he announced that it would rain on Saturday. Anyone who was awake all day Saturday and Saturday night can take an oath that it DIDN'T rain.

However, the weather man insisted that today he will be correct. From the looks of the barometer, the frosty weather will flee south to give Los Angeles and environs a taste of "unusual weather" while rain will fall in the northern section of the state.

The Sierra snow blanket is expected to be several inches deeper after the storm passes, as weather forecasters predict heavy snows for the mountains.

Ray Dolce Is Seriously Hurt

Raymond Dolce, 20, former Richmond resident, was critically injured while at work near San Jose last Thursday and is in a serious condition at a San Jose hospital.

The accident happened when a two-ton tamping machine under which Dolce was working, started to move and ran over him. He suffered 14 broken ribs, fractures of the knee, pelvic bone and collar bone; a severe hernia and gashes about the head.

Dolce is a nephew of Mrs. J. F. Cannon of 624 Bissell avenue.

Gallant Firemen Called To Save Annex Residence

Mrs. C. R. Botsford, of 1903 Burlingame avenue, in Richmond Annex was visiting with neighbors yesterday afternoon, leaving her home unoccupied. During the course of her visit, she happened to look out the window.

For a brief instant the woman was almost petrified by fright and alarm. From over a hill, near her home, black smoke rolled heavenward. Mrs. Botsford started to run home and a neighbor rushed to a fire box and pulled the alarm.

A very short time later sirens screamed and bells clanged as Fire Engine No. 4 and a fire official's automobile whizzed to the scene of the alarm.

They found W. G. Davis, of 1735 Shasta street, calmly attending to a bonfire in the rear of his yard, wondering what all the "fuss" was about.

Davis was burning old hay and rubbish, which sent up enough smoke for a five-alarm fire. It was this smoke that Mrs. Botsford had seen, and immediately had feared the worst.

Firemen said, "Oh, hum," and returned to the pinhole game.

BRUIN ELEVEN IS BEATEN IN AERIAL ATTACK

LOS ANGELES, Nov. 11.—UP—Red-shirted range riders from Southern Methodist University, swooping footballs around like lassoed steers, over a stubborn football eleven from the University of California at Los Angeles this afternoon in a major intercollegiate game.

Led by long-legged, twisting halfback, Sammie Bobby Wilson, the Texans whipped passes at the dazed Bruins, skirted ends and rode herd on chuckling Charlie Cheshire, the Bruins' would-be all-American before a holiday crowd of 50,000.

Dynamite Robert was the spark that lit up the red-jerseyed Mustangs' lead. He ran, threw passes and caught them all afternoon. Bruin lineemen tried to catch up with his twisting legs.

Musings' reason in the first quarter on a second pass. They forced a fumble. Bruin goal in the third quarter. In the third and fourth quarters a series of chucking passes—caught from the air—led to Bruin touchdowns.

Wilson's pass—caught from the air—led to Bruin touchdowns. Wilson's pass—caught from the air—led to Bruin touchdowns. Wilson's pass—caught from the air—led to Bruin touchdowns.

David Lamson To Waive Plea For U. S. Trial

SAN FRANCISCO, Nov. 11.—UP—David A. Lamson, who goes to his death tomorrow, has decided to waive his right to a trial in the United States.

Lamson, 34, was convicted of the murder of a woman in 1931. He was sentenced to hang. He has been in prison since then.

Lamson was convicted and sentenced to hang after his first trial. Subsequently the Supreme Court ordered a new trial which was held in 1934.

Lamson was convicted and sentenced to hang after his first trial. Subsequently the Supreme Court ordered a new trial which was held in 1934.

BAY MEADOWS RACING MEET OPENS NOV. 16

BAY MEADOWS, Nov. 11.—Jockeys are to have a special incentive to battle for higher honors at Bay Meadows during the fall meeting, Nov. 16 to December 14.

The "Kyne Contest" will be inaugurated with a purse of \$250 to the winning jockey, donated by the association.

Manager William P. Kyne today announced conditions for the competition over the 21 day period of racing, the winner to be determined through a pointing system.

The award will be figured on the following basis: Four point for first, second—two points, third—One point.

By this arrangement the "money rider" has a chance and it obviates any chance of a runaway. The contest promises to increase interest among silk wearers.

A sprinter fight for first money should result with such lads as R. Neves, R. Sperry, C. Stevenson, W. Martin, E. Phillips, M. Sletoff, C. Smith and W. McCormick hustling after the Kyne cash award.

Joe E. Brown asked for Bay Meadows stalls today.

Joe has four highly prized gallopers which he obtained in the east via the claiming box. His lost his best one Captain Argo but obtained some good ones to replace the sprint ace.

A convert from the land of cinema to the racing field Brown made his intention of racing at Bay Meadows known when today he applied for stalls.

King Crosby is another Hollywood star who has horses at Bay Meadows where they are under the watchful eye of Trainer Albert Albert Johnson. Mac West has her stalls here occupied and Leon Gordon, Rex Bell, Clara Bow and Raoul Walsh thoroughbreds are also mauling oats at Bay Meadows and ready to carry Hollywood colors into battle.

Kidneys Must Clean Out Acids

The only way your body can clean out acids and poisons is through the kidneys. If they are weak, acids and poisons build up in your system, making you feel tired, nervous, and generally unwell. Buy a box of Listerine Kidney Tablets today. They will clean out your system and make you feel like a new man.

With Coast Gridders

CLIPPER PLEASED SANTA CLARA, Nov. 11.—UP—The St. Mary's Gridders went through another workout today in preparation for their annual "big game" with the St. Mary's Gridders last Sunday.

Coach Clipper Smith seemed pleased by the Gridders' progress in the last week's practice and after the Gridders' somewhat inferior showing in New York Saturday against the Fordham Rams, he indicated that the Gridders have every chance in the world of winning their traditional rivalry.

Cardinals jittery PALO ALTO, Nov. 11.—UP—Although it was moderately warm in Palo Alto today, the entire Stanford team, including Coach Tim Thornhill and several thousand enthusiastic supporters, were shivering.

The halfbreath 3 to 2 victory over lowly U. S. C., coupled with the prospects of facing the powerful California Bears a week from Saturday kept fans in a trembling condition.

As a result of Saturday's poor showing the odds for the "Big Game" will probably be around 10 to 7 for California.

Thornhill gave the Indians a rest today but will start the pregame grid tomorrow.

COMES TO LIFE BERKELEY, Nov. 11.—UP—Even the most pessimistic of supporters was ready to admit that California might have possibilities of a half-team. This gloomy supporter was

Edsel Ford In Refusal To Take Part In Congress

WASHINGTON, Nov. 11.—UP—Edsel Ford, wealthy Detroit motor maker, tonight declined to participate in the forthcoming NRA "industrial congress" here, but offered the government the experience and counsel of his company.

The offer was quickly accepted but Major George L. Berry, coordinator for industrial cooperation, who called the meeting of business and labor leaders in hopes of evolving a program looking toward stabilization of industry.

"We have not participated in such conferences in the past," said the manufacturer, "and our observation of their effect upon the recovery of the nation's economic health has not convinced us that any beneficial end will be served by them now."

JOE JINKS

NEXT BATTLE OF BEARS WITH C. P. TIGERS

BERKELEY, Nov. 11.—After six Saturdays of the toughest football competition the Pacific Coast affords, the California Golden Bears "breath"—theoretically—this coming Saturday, November 16, against the Tigers of the Pacific.

The game is billed as a "breath" but the Bears remembered the battle they had last year when Coach Amos Alonzo Stagg brought the Bears to a standstill during the greater part of the game. The Blue and Gold forces managed to come out on the not-too-long end of the scoring, 7 to 6.

Saturday's game gives the Bears a brief respite from the summer pressure that has been bearing down on them ever since the first Saturday in October, when they began the "toughest schedule on the Coast"—St. Mary's, Oregon, Santa Clara, Southern California, UCLA, and Washington on successive Saturdays.

The Bears are expected to be a rest period before the annual Stanford game November 22, which looms right now as the biggest "Big Game" in years.

This year's C. O. P. team has the "slant-kicker" record of the 1931 eleven, although they led Southern California 7 to 6 throughout the greater part of their opening game in Los Angeles, losing eventually 20 to 7.

They played a scoreless tie, and with Nevada, beaten 7 to 6, the Staggmen have showed a return to the form that made them the most formidable small team in northern California.

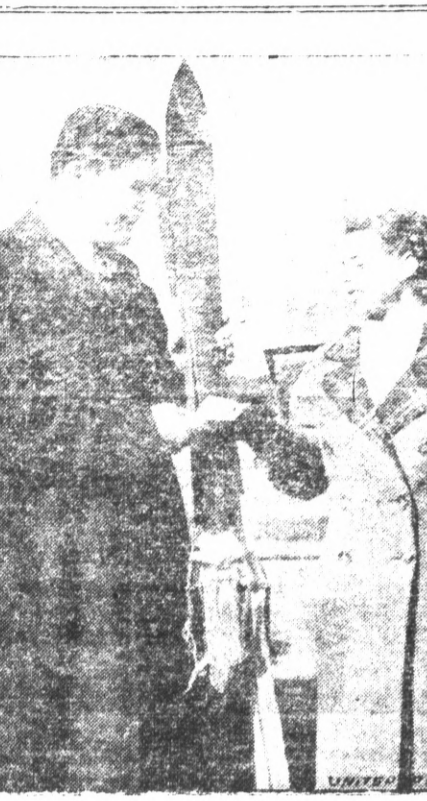

Kickoff Saturday is scheduled for 2 o'clock. The Cal Ramblers will meet the Stanford Greys in the preliminary game.

Nevada Beaten By Fresno State

MAUNY STADIUM, Reno, Nov. 11.—UP—Fresno State College Bulldogs, championship-bound, today defeated the University of Nevada Wolves, 27-6.

Badly outplayed in the first half, Fresno came back in the third and fourth periods to score three touchdowns.

Champs Meet

JAMES J. BRADDOCK, world's heavyweight boxing champion was extended an invitation to the Olympic games upon his arrival in Seattle, Wash., by Miss Grace Carter, diminutive Olympic skating star.

known local bantamweights, will meet the national team event tonight at the Oakland Auditorium.

The national team will be made up of the following: Fred Goetz, Los Angeles; Gene Postema, Berkeley; Henry Armstrong, Los Angeles; and Gene Thompson, Berkeley.

Preliminary bouts will see Freddie Goetz, who is under contract to fight Gene Postema, matched against Gene Postema, who is under contract to fight Gene Postema.

MOSCRIP HURT BUT WILL PLAY IN "BIG GAME"

LOS ANGELES, Nov. 11.—UP—Phyllis Moscrip, Stanford's star basketball player, who sustained a severe bruise on her right knee during the game, will play in the "Big Game" with California Nov. 23.

Moscrip bit the injury after the game, and it was only discovered when Dr. R. F. Roth, team physician, observed that she was unable to sit. The Stanford end who has won the last three games this season by virtue of his field goals was also said to be suffering from a slight knee injury.

ARMISTICE DAY IS IGNORED BY MOST OF GLOBE

Copyright 1935 by United Press.

A small minority of humanity yesterday (Monday) solemnly observed with thanksgiving the 17th anniversary of the World War armistice as the nations of the north again trembled on the brink of wholesale slaughter.

The powers victorious in the "war to end war" celebrated the cessation of the bloodiest war in history, but the defeated Central Powers, led by Germany, and three-fourths of the population of the globe paid not the slightest attention to November 11, as is their custom.

WAR IN PROGRESS

The solemn peace observance in the United States and in about half of Europe came in the midst of an active war in Africa and the threat of conflicts in Europe and in the Orient. And even in the comparatively few countries where Armistice Day is supposed to be revered, the war spirit flamed in riots, demonstrations and belligerent utterances.

Among many veterans of the last great war there ran an undercurrent of belief they were suckers, not heroes, for the parts they played in killing millions of their fellows.

RIOTS IN FRANCE

The customary two minutes of silence was observed at 11 A. M. for the 37,500,000 casualties of the World War—including 8,500,000 dead—but in Paris, Rome, Dublin and scattered smaller communities incidents clearly demonstrated that war is far from dead.

Excitable French marchers, numbering from 250,000 to 500,000, rioted on the Champs Elysee, fighting among themselves and with 5,000 mobile guards who finally dispersed the demonstrators. Purpose of the gathering was to honor France's unknown soldier. At members of the Fascist Solidarity Front began their march. Communist and Socialist groups yelled "assassins" at them and followed the yells with hurled tables and chairs from sidewalk cafes. The paraders halted and fists flew amid a deafening uproar of cheers, screams and impassioned singing of party songs. Police charged in.

ITALY IS READY

Tension abated at nightfall and further trouble appeared unlikely before Wednesday's Cabinet meeting.

The ancient enmity between England and Ireland flared to mar the peace celebration in Dublin. Irish demonstrators, accompanying their act by fiery warlike speeches, spurned the English flag.

Italy celebrated her armistice with Austria a week earlier, but in Rome, Mussolini, in celebrating the birthday of Victor Emanuel, the "war king," proclaimed Italy's armies were ready to defend the country's interests in Europe, in Africa or anywhere. He seized the occasion to protest formally the League of Nations' attempt to stop the war in Ethiopia by imposing sanctions against Italy.

Want Action

A GROUP of Ethiopian chiefs from the north who held a conference with leaders in Addis Ababa, when they indicated they favored an immediate heavy offensive against the Italians on two fronts. The general staff urged caution, however, inasmuch as the Ethiopian troops were said to be ineffectively armed and supplied.

El Cerrito News

BOY SCOUTS WILL RUN PARKING AREA

The Boy Scouts and the Sons of the Legion are preparing to run a parking lot between the Southern Club and the new boxing arena on San Pablo and Central. The Legion is getting ready to accommodate big crowds for the athletic bouts to be staged there. Dr. C. E. Scamman is in charge of preparing the parking space. He is being assisted by the Scouts and the Sons in clearing off the premises and building a fence around it.

J. E. O'BRIEN BUYS THE E. E. EVANS HOME

John E. O'Brien has purchased the E. E. Evans home at 521 North street and is moving his family into it this week. The Evans family has gone to Petaluma for a visit with relatives before settling in some new location. Mr. Evans was formerly in charge of Sunset View cemetery.

John Semas is redecorating his home on Clayton street both inside and out. It will be remembered that Semas and O'Brien were injured in a collision with a Grandin Cuckoo truck at Central and Liberty a few months ago.

RECORD CROWD ATTENDS POLICEMEN'S BALL

The policemen held their annual ball at Schwabe hall Saturday night with a record crowd in attendance. Music was furnished by a well known orchestra. A committee from the police department was in charge of the affair. Funds raised at the ball are to be devoted to benefits set aside for the widows and orphans of policemen.

BOY SCOUTS SHOWN LOCAL FORD PLANT

The American Legion and the Lions Club were hosts to both troops of the Boy Scouts yesterday.

THEY TOOK THE BOYS ON A TRIP

They took the boys on a trip thru the Ford plant in Richmond so that they could observe the Ford cars in process of manufacture and afterwards the whole group went out to the harbor to look over the United States destroyer Overton stationed there over Armistice Day.

MRS. ELDRIDGE HOSTESS TO THE AMICI CLUB

Mrs. Ella Eldridge of Coventry Road, Lockley Park, was hostess on Friday of last week to the members of the Amici Club. After an elaborate 1 o'clock luncheon the ladies spent the afternoon at cards. Prizes for high scores went to Mrs. Charlie McAuley and Mrs. Ella Eldridge, for low score to Mrs. Adah Huber.

Mrs. Huber will entertain the club next Friday at her home in Richmond Annex.

ITEMS OF LOCAL AND SOCIAL INTEREST

Ed Gallozzi of the El Nido Market is on his vacation. He is spending the two weeks with friends and relatives in Southern California.

Mrs. Carrie de Witte and her son Barton spent last week end in Modesto where they visited relatives.

Cecil Banks and Al St. Johns have been suffering from severe attacks of influenza but are able to be up and at work again now.

Governor To Be Speaker At Meet Of Farm Leaders

SACRAMENTO, Nov. 11.—UP.—Governor Frank P. Merriam will address more than 2,000 California farmers at the annual convention of the California Farm Bureau Federation in Santa Cruz Nov. 20. It was announced today.

The governor will sound the keynote of the four-day session and will present possible solutions to some of the major problems facing the California farming industry. It was learned tonight.

The convention will last from Nov. 18 to Nov. 21.

Tell It To Judge If License Missing

SACRAMENTO, Nov. 11.—UP.—Motorists will have to explain to the magistrate "right now" if they are stopped on the highway by an officer and cannot produce a driver's license.

Under the new vehicle code, all law enforcement agents are required to immediately take persons before the nearest magistrate in the county in which the offense occurs for the following infractions:

- 1.—When a person fails to exhibit his operator's or chauffeur's license.
 - 2.—When a person arrested refuses to give his written promise to appear in court.
 - 3.—When a person arrested demands an immediate appearance before a magistrate.
 - 4.—When a person is charged with hit-and-run driving wherein fatalities or injuries are incurred.
 - 5.—When a person is charged with driving while intoxicated.
- California Highway Patrol officers have been given instructions by Chief E. Raymond Cato to check for driver's licenses at every opportunity on state roads.

OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant.

Either because of stomach disturbances, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder others consider them a nuisance.

But now Science has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces.

This safe antiseptic and quick deodorant works quickly. It cleanses mouth, teeth, and gum surfaces. Halts fermentation and putrefaction, a major cause of odors, and then counteracts the odors themselves.

Try using Listerine every two or three days. See how much more wholesome it leaves your mouth. How it sweetens your breath. Lambert Pharmaceutical Co., St. Louis, Mo.

Don't offend others • Check halitosis with LISTERINE

Santa Fe Will Reduce Cost Of Traveler's Meals

Continuing its campaign to increase passenger business, the Santa Fe railway announces, thru Jas. B. Duffy, assistant passenger traffic manager, that beginning November 16, it will place in effect a new, low price scale of meals served to passengers on all trains making regular meal stops at Fred Harvey dining stations.

This new schedule of prices will present a full and delicious breakfast at 40 cents, an equally complete luncheon at 45 cents, and a dinner at 55 cents. In addition to these featured meals, there will be slightly less substantial breakfasts at 25 cents and 35 cents; lunches at 10 cents and 25 cents; and dinners at 15 cents and 40 cents.

Effective on the same date, the Santa Fe will introduce a series of complete and reasonably priced table d'hôte meals in dining cars on the Grand Canyon Limited, the California Limited. The scale for these meals will be 50 cents and 75 cents for breakfast, 90 cents for luncheon and \$1.25 for dinner. A la carte service will also be available on these trains.

CARGO DISPUTE WILL BE TAKEN BEFORE JURIST

SAN FRANCISCO, Nov. 11.—UP.—Held up for a week at San Pedro by a sailor's strike, the Dollar liner President Harrison was scheduled to sail tonight from San Francisco for the Orient.

Dollar officials said that barring any even difficulties, the liner would leave San Francisco at 12 midnight in a scheduled sailing time. The ship was delayed in San Pedro after the crew walked off in protest to the quality of food served aboard the ship. The sailors with a day demand for dismissal of the chief steward after a supervising steward was appointed.

Meanwhile, employers and longshoremen made final arrangements to bring the "hot cargo" dispute before Federal Judge M. C. Flores, arbitrator for the labor relations board.

The controversy involves cargo from the Gulf of Mexico on which the International Longshoremen's Association has declared an embargo pending settlement of a

China Clipper Completes Hop To Bay Regions

SAN FRANCISCO, Nov. 11.—UP.—Its final major test flight completed, the China Clipper, 25-ton flying boat, was pulled into its hangar at Alameda tonight, for last inspections and adjustments before start of the San Francisco-China mail service November 22.

The Pan American Airways ship, most advanced craft of its type ever built, flew from San Diego today with a crew of six and 19 passengers, completing a leisurely three-day jaunt from Miami, Fla. Four hours and 12 minutes after a perfect take-off from the naval air station at San Diego, Captain E. C. Musick, veteran 41-year old Pan-American pilot, set the ship down before 10,000 spectators at its new home base.

The plane, anxiously equipped to carry 20 overnight passengers in addition to the crew, is the first of three identical ships to be flown here from the Glenn L. Martin factory at Baltimore, Md. for the Pacific service.

dockworkers' strike there and recognition of the I. L. A.

BODIES OF 3 ARE HUNTED BY GUARDSMEN

SAN FRANCISCO, Nov. 11.—UP.—A 24-hour search for the bodies of two men and a boy, believed to have been swept off an embankment near Pedro Point yesterday was abandoned tonight by the Golden Gate Coast Guard detail.

Coast Guardsmen said they were convinced the trio had been swept into the ocean during a high tide. They found an unopened lunch basket and several articles of clothing near the spot they were reported to be fishing.

The two men were Harry L. Sawyer, 40, Burlingame, and A. A. Arnold, San Mateo. The boy was Charles E. Sawyer, 15, Stancil's step-son.

Fear for their safety was first expressed by Elijah Eilers, Stancil's father-in-law, who accompanied them on their fishing trip, but did not go to Pedro Point. When they failed to return, he notified the coast guard.

The heart of your home

A MODERN HEATING SYSTEM!

Circulating Heater
Attractive, low in first cost and highly efficient. It heats two to four rooms. Made in many sizes and styles. Extremely economical to operate.

Floor Furnace
Solves the heating problem for homes without a basement. Highly praised by thousands. Saves floor space and is easy and most economical to install and operate.

The Radiant Fire
For a cheerful fireplace that always stays clean, install a Radiant Fire. Made in many sizes and styles. Beautiful, efficient and inexpensive to buy and operate.

Steam Radiators
The Individual Steam Radiator is a complete heating unit in itself. One radiator heats one or two rooms, depending upon size.

Conversion Burner
Change your furnace to burn Natural Gas. 100,000 of these burners are now in successful use.

The Steam Boiler
Gas lends itself more readily than any other fuel to a steam heating system. Made for every type of dwelling, small or large, apartment or flat.

Warm-air Furnace
One of the finest of automatic heating systems. Yet modern models can afford it. Recommended by architects and contractors.

BETTER HOUSING PROGRAM

RIGHT NOW is the month to buy modern gas heating equipment

Natural Gas Equipment Low First Cost Economical to Operate

Now, Mr. Home Owner, you can go ahead and modernize your home with up-to-the-minute gas heating. You can afford to because now it is no longer a case of "haven't the money to do it." You can have the money. You can install right now, exactly the right type and size of gas heating appliance your home demands.

Don't delay. Call this company. See your local contractor or gas appliance dealer. Talk it over, and then select the type of gas heating you need. Then be all ready for winter cold with a heating system that is convenient, effortless, economical, safe, clean and efficient. Thousands of home owners are modernizing, why not you?

NINO MARTINI MAKE DEBUT IN FILM ROMANCE

Nino Martini makes his long anticipated motion picture debut in "Here's to Romance," which opens today at the Fox theater on a double program with "Two-Fisted" starring Lee Tracy and Roscoe Karns.

Asisted by Genevieve Tobin and Anita Louise, Martini enacts the leading role in this picture that describes the comedy and the romance in the life of a singer. The story, which moves from New York to Bohemian Paris, is that of a man who is loved by two women, but who really loves only one. His success, however, depends on the woman whose affection he cannot tolerate, and there are many amusing and some near-tragic adventures before he achieves success and the romance for which he yearns.

Martini sings several songs from the most popular operas, as well as two popular songs.

Shirley Krimm-Schumann-Heink would furnish concert artists, making her debut in "Here's to Romance," Maria Gambarelli, outstanding ballerina, and Vincent Escudero, most met Spanish dancer, also are cast in important roles. Other important parts are played by Reginald Denny, Genevieve Tobin and Anita Louise. Alfred Green directed for 20th Century-Fox.

Based on the stage play, "Is Zat So?" the new Tracy comedy, makes him the club manager of Roscoe Karns, a "palooka." Their fortunes at low tide, they are taken into a mansion where Tracy becomes a butler and Karns the second man.

Gail Patrick, Grace Bradley, Gordon Westcott and Kent Taylor are among the cast aiding in the fun festivities.

Sunday Banquet

ENTER at left to the "guchi" of the Ras Hailu at Debra Markos, Ethiopia, an area toward which the Italian army is pressing in the north. The building with the triangular facade is the "ardench" where the chieftain serves a banquet to five or six thousand of his followers every Sunday—an old Ethiopian custom.

Hollywood Film Shop

HOLLYWOOD, Nov. 11. P. P. E. opera stars who once were the world's best women who the local of Broadway, men and women who helped re-make the globe, they plug along in the Hollywood studios at \$750 a day.

There is Francesco Maria, who helped change Italian history after the World War, Gabriele d'Annunzio made him one of his right hand men during the dispute over Fiume. Mara has a small role with Josephine Hutchinson and George Houston in "The Mad Mad Mad Mad."

Baron Genaro Maria Cenci, brother-in-law of Gail Patrick, who gave 200 performances of "The Barber of Seville," is also in the cast.

Others doing bits of extra parts in the picture, filmed by Edward Small at Reddence studios, included:

Jack Palmer, whose stock company toured America eight years. Carmo Kyrie, Belle, son of Kyrie, Belle, mother of another generation and creator of the stage "Raffles."

Nicholas Koblanski, member of the Duma, officials of the old Russian government.

Carlton Glick, star of "Humoresque."

Trudy Shattuck, once known as the "Goddess of Broadway."

Cherie May, one of Hollywood's most daring stunt women.

Adriana Casabelli, kin of Louis Casabelli, called the "Greatest Living Carmen."

Madame Moriska, Adeline, famous in Wagon wheel roles in the Metropolitan.

Colonel McDowell, one of the officers assigned to escort the Prince of Wales on his first trip to the war front.

Princess Nural Sharada, of Egypt, spokeswoman of George Bernard Shaw.

Crew Of Ship On Rocks Reported Safe In Storm

MANILA, Tuesday, Nov. 12. P. P.—The crew and passengers of the S. S. Silver Hazel, a round and broken in two off the southern end of the Island of Luzon, apparently are safe on a rock near the wreck of vessel, it was reported today.

Captain W. W. Brant of the S. S. New York, standing by the Silver Hazel, advised early this morning that crew in the vicinity were mending, raising hopes of an early rescue of the stranded survivors.

He indicated there had been no loss of life in the accident.

Captain Brant advised at 6 P. M. according to the Radio Marine Corporation, that the United States destroyer Perry was arriving. The Perry was ordered to the scene of the wreck from Manila.

Captain Brant reported the loss of the Silver Hazel, a 3991-ton vessel that left San Francisco October 18 for Singapore and Bombay via Manila, gradually was sinking into deep water.

Father Of Local Residents Called

Last rites will be held from St. Paul's Catholic church at 10 o'clock on Wednesday morning for the late Joseph Silva Vital, 58, of Visalia, father of Emily and Paloma Vital and Mrs. Mary Texeira, all of San Pablo, who died on Saturday. Interment will be in St. Joseph's cemetery.

The lady will arrive today at the Ryan Funeral Home and obituary will be said tonight.

Besides the local residents, Vital leaves the following sons and daughters: Mamed and Louis, of Patterson; Rosa and Joseph of Visalia.

NEW YORK INSIDE OUT By DON O'MALLEY

NEW YORK, Nov. 11. Another couple of elections, and Dr. Nathan Wolf will probably become a national celebrity.

Dr. Wolf is the man whose home in the French election district of the Tenth Assembly section east of the city about \$1000. He lives at 249 West 25th Street, over in the Fashion Center, and is rabbi of the synagogue for Jewish business men in that neighborhood.

The election district in which he lives is comprised entirely of business buildings, and Dr. Wolf is the only voter maintaining a legal residence. Every year, during registration week and primary day as well as election day, a large number of people come to the polling place, a vote machine and booth are transported by the city, stationed in the district, and police protection furnished.

Each year they have around until Dr. Wolf, with solemn pomp, arrives to do his stuff as a conscientious citizen. The photographers come and take pictures, reporters get interviews, and then everybody goes home.

At least there are no errors in the count.

TICK TOCK. As for a Schlenker, engineer and geologist, expert, tell me a borrowing tale about a week in New York, who might have been the current nominee.

Dr. Wolf is the man whose home in the French election district of the Tenth Assembly section east of the city about \$1000. He lives at 249 West 25th Street, over in the Fashion Center, and is rabbi of the synagogue for Jewish business men in that neighborhood.

Townsend Chief To Be Speaker At Meet Monday

Meeting last evening, the Richmond Townsend Club started active plans for a big rally and pep meeting to be held at Lincoln school auditorium next Monday evening at 8 o'clock.

Edward Mardet, district manager of the Townsend Revolving Pension plan will be the speaker of the evening. He is a forceful talker and is expected to bring an interesting and instructive message to local residents.

The entire city has been invited to attend the session.

A short meeting was held by the club last evening. Owing to the illness of his wife, George Black, club president, was unable to attend the meeting. Dr. J. M. Deary presided in his absence.

IS IN HOSPITAL.

Mrs. Catherine Imbach, mother of City Councilman George Imbach, and former mayor, has been taken to Richmond Cottage Hospital where she will undergo treatment for a serious disorder.

Many fans have taken to buying 50-cent tickets to opening nights, and they're becoming an institution.

The same etiquette appears regularly in the rafters, with their own kind of swanky etiquette. They have quite a time spotting the celebrities through opera glasses. Recently, at the Empire theater, when the Edison machine is very steep, a couple of them leaned over so far to catch a glimpse of Mrs. Franklin D. Roosevelt that frightened ushers below had to run up and warn them back.

When Johnny Anthony turns up in the little town of Burnside, no one knows just who he is or where he came from. Alma Whitaker daughter of Lawson Whitaker one of the town's leading citizens, falls in love with him. But Johnny raises the secret of his past as a barrier between them. Alma's father wants her to marry Sig Boradine, who is connected with the local bank but Alma rejects him. Her father suffers a nervous breakdown and it is discovered that he is in financial difficulty. That Sig is coming back to marry her.

CHAPTER XIII

The reporter dashed away and Alma faced her aunt in speechless consternation.

"Well," said Aunt Harriet "are you going to stand here all evening like a ninny, or come and get dressed? Murphy has prepared your bath. Now do hurry, Alma."

"I don't want to see Sig," Aunt Harriet said weakly. "I can't!"

"Nonsense, Alma! What possible reason could you have for not wanting to see him? After all it's very kind of him to come back here like this, considering! And you are in no position to act haughty!"

It was a cold slap in the face. Alma flinched.

"You asked him to come back," she accused her aunt in a choked voice. "You asked him without consulting me! You're trying to marry me off to him!"

Aunt Harriet shot her a hasty uneasy glance.

Alma stared at her in open suspicion. She did not in the least believe her aunt's smug statement.

And so you invite him to dinner and a social evening and insist that I dress for the occasion?" she flared bitterly. "Did you know that he has already asked me to marry him? And that I refused him?"

Aunt Harriet eyed her in exasperation.

"No," she said crisply. "I didn't out that has nothing to do with the matter! Naturally you are the person most concerned with your father's welfare and I assumed you'd want to hear whatever Sig Boradine has to propose."

"Even if it's a further proposal of marriage?" Alma asked sarcastically.

"You could certainly do a lot worse. Alma! Your father is a bankrupt. I've lost nearly everything myself and am in no position to help you. You'd better think about Sig!"

"Don't worry," Alma choked. "You won't have to support me on your declining fortune!"

She turned, and started up the stairs.

"DON'T be ridiculous, Alma! Aunt Harriet came hurrying

YOUR GOOD HEALTH

Pneumonia Patient in Delirium Requires Watching of Closest Kind

By CLAUD NORTH CHRISMAN, M.D.

CASES of pneumonia must always be watched for certain involvements which add to the seriousness of the condition. A critical complication is one that concerns the brain. The appearance of delirium in cases of pneumonia is always a grave matter. It is true, of course, that some people always get a little out of their heads when they have a rise of temperature from any cause. But in a case where the supply of fresh oxygen to the system is being obstructed, and sufficient brain congestion is present to make the patient even slightly irrational, look out for trouble.

DR. CHRISMAN

Delirium may set in at any stage of pneumonia, sometimes without any apparent warning and occasionally even after the temperature has passed its peak and has fallen. Usually, the active aberration is preceded by evident restlessness and sleeplessness. Muscles will twitch, an anxious look appears in the face or just the opposite, an expression of entire indifference. In the presence of such symptoms, the utmost watchfulness is needed.

Gets Many Ideas

The patient may try to get up and go back to work. He may get the idea that some one is after him to do him hurt. He may try to go to someone whom he thinks to be in danger. Patients in this condition occasionally get away and wander off too thinly clad, or even naked.

In these irrational cases the caretaker should always be prepared with blankets, sideboards for the bed or bars for the window. More than that, a nurse should remain between the bed and the window because usually the attacks of dementia lead the pneumonia patient to move like a flash and to use abnormal strength.

At this point we must stress repeatedly the fact that pneumonia cases must sleep. By any means, he must sleep. Even mild insomnia is a handicap and retards recovery. There are many sedatives, like the bromides, forms of chloral and codeine, amylal and the like, which may be used either by the mouth or by injection to control the restlessness and induce sleep. Deciding upon the type and quantity of sedative is an expert's job and must not be left to chance. Inadequate dosage often only causes excitement and makes things worse. Too much of a good thing may bring on such a deep depression that the patient won't survive.

Remember, the sedative must quiet the cerebral center and still not depress the respiratory tract too effectively. This takes the best judgment of a good physician. Above all, our good friend, alcohol, is not to be depended upon in these cases.

Many Remedies Available

There are remedies available to the profession, like those of the barbituric acid compounds, that are entirely reliable. The method has once prevailed in wrapping pneumonia patients in wet packs was discarded largely because of the difficulty in handling and preventing further chilling.

When all is said and done about the treatment of pneumonia, our biggest hope is in preventing its recurrence. Everything connected with the results of taking cold in any form mounts up to a tremendous amount of disability, not to mention suffering and death.

Some of us would rather suffer real pain than to be "no account," which is the usual convalescent state of the respiratory diseases. The authorities continue to tell us that "Deficiencies of any sort tend to decrease the ability of the body to resist disease." Well, that covers a lot of troubles, but it is particularly true in diseases that affect the throat and lungs.

The special vitamin indicated as needed is vitamin A, which makes for healthy epithelial tissues and thus strengthens the mucous membranes. It is found most plentifully in cod liver or Haliver oil and is now available in very palatable forms.

Short Cuts

Dry meated fish should be used for pickling, as it holds its shape in the process of pickling better than the oily fish.

For kitchen use there is a new step-on can for refuse. The inner pull is made of the same porcelain enamel as your cooking pots. It is easy to keep clean. It is ten quart size and comes in ivory with red or green stripe trimming.

If you are thinking of investing in a new shower curtain, ask to see the oil silk curtain. It is water and mildew proof and will not stick.

To save white sauce very lumpy, rub it through sieve and reheat for service.

Profiles For Today

Juan Trippe Is Young Pioneer

By TALBOT LAKE

AMONG the new sagas of American business is the career of youthful Juan Trippe, who, although not quite forty, is president of the Pan American Airways. Commercial aviation is one of the youngest industries of the world; therefore it is possible for Trippe to be called a pioneer. He was in at the beginning and has grown up with the business. Juan was in Yale when the United States entered the war. He had a notable line of ancestors who had been New England sea captains—steering their ships over the far seas. His great-grandfather, John Trippe, had commanded a ship in the fight against Barbary pirates. What more natural, then, for Juan to take a modern slant—still retaining the sea feature—and enlist in Naval Aviation?

It was the turn that headed him into his career. Returning to Yale, he formed the Yale Flying Club, and was graduated in 1920. Two years later he organized the Long Island Airways System, which was one of the first passenger lines. In 1926 he organized Colonial Airways, and established the first regular passenger service between New York and Boston.

This went so well that in another year he joined by C. V. (Sonny) Whitney, William H. Vanderbilt and William A. Rockefeller, formed the Aviation Corporation of America, which became the holding company for Pan American Airways.

On the practical side, Trippe has succeeded in handling the South American business with much diplomacy, doing things in the typical South American manner, with time out for fiestas. This method captured plenty of good will. Spreading out to the Pacific, Pan American has inaugurated the first trans-Pacific route to China, and has captured the idea with the tremendous new China Clipper.

At home, which is Easthampton, L. I., Mr. Trippe likes to smoke his pipe and lay plans. He is soft-spoken and unhurried, but manages to accomplish a tremendous amount of work with no wasted motion. That is his secret. He could never work under a boss; he'd probably be fired for appearing lazy.

SQUARE CAPELET

Copyright, 1935, by F. Schindler

The original of this frock in white and silver cloth is worn by Joan Crawford in a new film and is reproduced here in black cellophane fabric. The square capelet is removable and the front of the bodice is worked in loose, horizontal tucks.

Clear Skinned Faces Always Are Admired

By JACQUELINE HUNT

WHAT kind of faces do you see and love and remember round, smiling faces, oval, sophisticated faces, young or old faces? Those that make the deepest impression on most of us are faces that are fresh, clear-skinned, and expressive. It doesn't make any difference if they are young or old, round or thin, or delicate as a flower.

Fortunately, every one can have a face that meets these requirements. Of course, your features may not be perfect, but there is little you can do to change them. You can only study your skin and find the routine of cleansing, stimulating, and softening that will keep it young and clear enough to flatter the features you have.

It isn't necessary to work hard to keep your complexion lovely. Just read the circulars that come with your preparations and learn to follow directions; choose the right preparations for your particular skin, and use them as they should be used. Learn to give yourself a quick, lifting massage. Try to simplify the steps in your beauty routine until you can follow them without thinking.

MISS HUNT

First, find the method of cleansing that is best for your skin. Fasten a gauze or elastic band around your head to keep creams or soaps out of your hair. Now, with deft, upward strokes of the fingertips, apply a cleansing cream.

If your skin is only one of the very light, quick-melting cleansing creams is best. If it tends to be dry use a heavier cream. Or, if your skin is normal you may prefer to omit the cleansing cream step, except on special occasions when your skin is somewhat chapped or tired. Leave the cream on for a few seconds and remove with tissues.

Next let a little tepid water run into your wash basin, and with a washcloth or complexion brush (for normal or oily skins) work up a stiff lather of bland soap. Work over your skin with swift, upward strokes to complete the cleansing and to stimulate the skin. Rinse with tepid water and pat dry with an absorbent towel.

Now use your softening cream liberally if your skin is dry, or if it has become sallow and filled with tiny lines. Start at the base of your neck and with gentle, but firm, pinching and lifting movements work the cream into your hungry skin. Up to your chin and jawline, up and out from the chin and from the mouth and corners of the mouth. Massage across the lines about your mouth and in your forehead and circle the eyes gently to smooth away tiny, tired lines.

Leave the cream on your face for ten minutes and then remove with the same up and out movements. To remove all of that not absorbed. Now use your skin tonic or astringent thoroughly chilled to keep the texture of your skin fine and to improve the circulation. When you have mastered all of these steps and go through them every day, you have done much to make your face fresh, clear-skinned, and lovely.

Beauty Tips

QUESTION: I am nearly thirty and my skin is covered with unsightly blackheads, especially around my mouth and nose. Sometimes these develop into tiny eruptions. I also have chin acne. At my age is it possible to regain a smooth, clear complexion? I would do anything to improve my skin.

—Dolores.

I suggest a check-up on your diet as the first step. The condition you describe indicates a sluggish physical condition, possibly due to too rich food, improper elimination, or indigestion. Try a diet of skimmed milk or buttermilk, cooked and raw fresh vegetables, whole cereals and lean meat, with very little bread, potatoes or sweets for a week and see if, with ordinary care, your skin doesn't improve.

To stimulate the circulation and free the clogged pores of their accumulations, use a thick soapy lather and a complexion brush for cleansing once or twice daily. Rinse carefully and use an astringent. Whichazel diluted with orange flower water is a simple one for this purpose, or you can try one of the commercial astringents. If the latter seems to irritate your skin dilute with cold water before using.

Daintiness is manifest to the eye as clean skin, shining hair, with clean clothes and fresh breath. But, more subtly, it appeals to our mysterious sense of smell, and a lack of daintiness in the matter of body odor can be said to be the worst offense.

All Purpose Winter Coat Should Be Conservative

By IRENE VAIL

New York—The average woman owns but one winter coat. It has, therefore, to be an all-purpose coat, and should be conservative. That's an elastic term, however. Many of the season's coats are conservative only in relation to others.

Black is obviously the best choice for the woman limited to one coat, but there are some stunning olive greens and some wine shades lovely and practical enough to warrant her consideration. Full in the back is a coat formula of the moment, but it is as one-silhouette coat, not even in coats.

Among the town coats now in action are many with Persian lamb edging. This lends a touch of the texture of broad brim, for such coats are to journey south in short order. Persian lends itself better to business than almost any other fur, with the possible exception of seal, which is used, too.

With either a fur-bound collar or a coat without fur, the all-but fur is a good bet. Not for you, however, milliners found such good news of fur.

Silver fox for capes and Persian for coats, trimming suits and the current shawls. There is a new Vionnet model with leopard skin in evidence, however, just now, and some other nutria in vogue.

Modes and Manners

QUESTION: "I hesitate to intrude rich relatives of mine and to our home for dinner, though such an invitation is often. We have a modest two-and-a-half room apartment. I am an average cook, with limited means for entertaining. They are accustomed to living in grand style. What would you do?"—Mrs. F. G.

ANSWER: Unless they have been misled deliberately, your husband's rich relatives and their guests will be surprised to find what your circumstances are. They would not expect more than your best effort at making an evening at home, and they would not want to pay any expense beyond your means in their behalf. To ape the quality of their service, or to have your dinner table set with silver and glass, would be vulgar, respectively. The best table linen; your best china; silverware, glassware, and a few flowers, and you are ready to entertain. The same type of a meal that you would prepare for your best friends whose means are a par with your own. Look for prettiest. Make them welcome.

Dishes for Today

Broiled Meat Easy on Cook Or Consumer

By JUDITH WILSON

HOW do you like your steaks? Broiled, of course, that is such a simple, easy way of preparing them and all of the natural flavor and juices are retained. But you needn't limit broiling to your steaks alone.

Since the cooking period is usually brief and the temperature very high you will have to limit the meat prepared in this way to the very tender cuts. Still, you will have a surprising repertory—steaks of all kinds, lamb chops, mutton, bacon, ham slices, sausages, frankfurters, veal and pork chops.

With these you can broil pieces of fruit and partially cooked vegetables, or vegetables that can be cooked in a very short time, so not only the meat, but the entire main course issues from the oven at the same time.

Meat means turning but once, so decide whether you like your steak or chops well done, medium, or rare and determine the entire cooking time from the weight and the required minutes per pound. Turn the meat when half of the time has elapsed, then forget it until you are ready to serve. Here is a broiling time table to help guide you:

LUNCHEONS FOR MEN
Jellied Bouillon
Calves Liver-Mushrooms en Brochette
Mashed Potatoes—Hot Rolls
Watercress-Shredded Radish
Salad
Raisin Spice Cakes Tea
Chilled Tomato Juice
Mixed Grill—Pork Chops, Tomatoes Stuffed with Corn, Mushrooms and Sweet Potato
Individual Apple Pies
Coffee

Beef Steaks—Porterhouse, Sirloin or Club
1-Inch Thick
Rare—8 minutes per pound.
Medium—12 minutes per pound.
Well done—15 minutes per pound.

1½-Inches Thick
Rare—12 minutes per pound.
Medium—20-25 min. per pound.
Well done—25-30 min. per pound.
Lamb—Rib, Loin or Shoulder
Chops

¾-Inch thick, 12-15 minutes.
1½-Inches thick, 25-30 minutes.
Pork—Tenderloin or Shoulder
Chops

1-Inch thick, 25 minutes.
To make your juicy steaks or chops taste twice as good, sprinkle them with salt and pepper just before they finish cooking, after they have been turned, place on a hot platter and drop on a lump of butter, or serve with a savory sauce. The following is delicious with tender steaks:

Maitre d'Hotel Butter
Cream 4 tablespoons butter, add 1 teaspoon salt, ½ teaspoon pepper and ½ teaspoon finely chopped parsley. Add 1½ teaspoons lemon juice a little at a time, creaming after each addition. This makes sufficient sauce for a ½-pound porterhouse steak.

En Brochette
This is another form of broiling in which the food is cut into small portions and strung on small steel skewers, then dipped in butter and cooked under the broiler flame until the food is browned and thoroughly cooked. The food may be partially cooked in advance if you wish. This makes an unusually attractive service. Lay the skewers flat across a dripping pan and turn two or three times so the food will be browned on all sides.

MODERN WOMEN

About the Attitude of Two Middle-Aged Couples Toward Their Daughters

By MARIAN MAYS MARTIN

THE two couples whose problems are discussed today have nothing in common save a similarity of ages, or so I would judge, and the fact that each has a marriageable daughter. Our No. 1 couple is ultra-modern, and on being freed of a daughter, are about to step out. The No. 2 couple is of the old-fashioned variety. They are reconciled to the prolonged engagement of their daughter and opposed to a shorter one, since it means the bride would continue in her job.

You and Your Child

Comparing Children Makes for Favoritism

By JANE HERBERT GOWARD

SIX-MONTHS-OLD Lois lay in her crib kicking and smiling. The guest manipulated her fingers to attract baby's attention. The baby, who was flinging her arms about

anyway, now brought one hand closer to her little body and seemed to reply by doing the same. "Did you see that?" the guest exclaimed excitedly. "The little monkey is imitating me." "Oh, yes," the proud mother replied, implying that it was a foregone conclusion that her baby could do such tricks. "Lois is a brighter child than Arthur." Arthur is the baby's brother and a little over two.

The guest looked appealingly at the young mother. "You shouldn't say that. You shouldn't even allow yourself to think it. There is really no basis for comparison between a baby and a child of two."

"I guess you're right," the mother agreed somewhat sheepishly. Then, as though to defend her point of view, she added: "But Arthur was never the same baby that Lois is. He was more quiet, less responsive. But of course I love them both the same." "Of course," the guest replied, but she could not help thinking to herself how well in advance of her brother toward becoming mother's favorite the little girl already was.

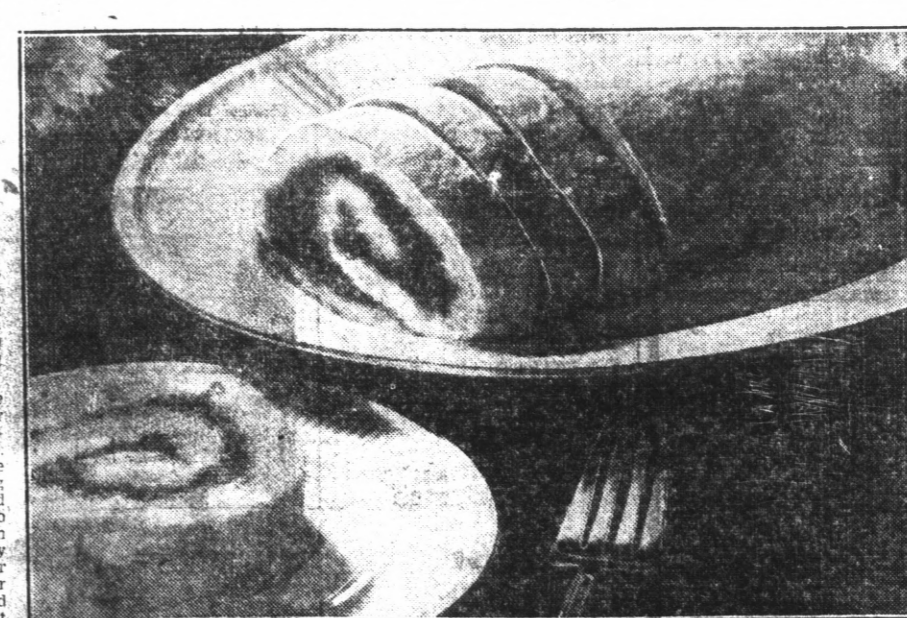

If a mother allows herself to think of one child as being less bright, less charming, less good-looking, less anything than another, it follows naturally that her feelings and attitude toward that child will become colored accordingly. The child himself will begin believing the same thing and never strive to be anything else.

A mother ought to keep a check on herself lest she develop the habit of making comparisons. No two children are alike. She must expect them to be different, each with his own good points. Then she is not likely to favor one child over another.

Calves' Liver and Mushrooms En Brochette

Cut calves' liver into square pieces 2-3 inch thick. Season with salt and pepper and toss in melted butter just long enough to stiffen them. Partially fry small whole mushrooms, or mushroom slices and drop slices of salt pork into boiling water for a minute and drain. Place the liver squares, mushrooms and salt pork alternately on skewers, season well with salt, pepper and onion juice and sprinkle with fine buttered bread crumbs and brown in broiler. Serve on buttered toast with mushroom or tomato sauce.

FOR THE AFTERNOON SNACK

Old-Fashioned Jelly Roll: ¾ cup sifted cake flour, ¾ teaspoon double-acting baking powder, ¼ teaspoon salt, 4 eggs, ¾ cup sifted sugar, 1 teaspoon vanilla, 1 cup jelly (any flavor). Combine baking powder, salt, and eggs in bowl. Place over bowl of hot water and beat, adding sugar until mixture becomes thick. Remove bowl from hot water. Fold in flour and vanilla. Bake in hot oven (400 degrees F.) 15 minutes. Turn out on cloth covered with powdered sugar. Spread with jelly and roll. Wrap in cloth and cool on rack.

Stating the Problem

"My dear Mrs. Martin: Our daughter has recently married, leaving my husband and myself free to travel (he is retired) and to do just as we like—within our means, which are ample. We are in our middle fifties and look younger. We like life and have been recently criticized by several of our friends for taking dancing lessons. We both used to dance, but haven't in years, and don't see any reason why we shouldn't go out and dance now, do you? My daughter says we're crazy and seems quite upset about it. What do you think? We're going to move into the city and see something of life, as during our younger years we were tied down with the children. Please give me your views."

"Good Looking Couple."
By all means dance to your heart's content. Your daughter has elected to live her life as she wants to and has no right to interfere with anything that will bring you what happiness you can get out of life—which is still considerable.

To be free at fifty—carefree, I mean—and be able to travel when the wanderlust sets you, or to stay at home when you feel in the home mood, is something to be thankful for. Why shouldn't you enjoy your life in any way you see fit?

Plenty of Them

Any number of middle-aged couples are to be seen dancing in clubs and restaurants, while tours are made up for just such couples seeing the world for the first time. There is nothing more absurd, and at the same time more absurd, than seeing old people trying to appear and to act young, but so long as you content yourselves with running water and your own no one should criticize you for dancing, golfing, swimming or doing any of the things you enjoy doing.

"My dear Mrs. Martin: My daughter is engaged to be married to a nice young man and has just told us they have decided that she is to go on working after they are married. We, my husband and I, are very much opposed to the idea. They were planning to be married around Christmastime and now we are urging them to wait another year in order for them to save more money. Don't you think they should? There is no hurry, after all. She lives home with us and has all her money for herself, as we don't make her pay anything to us. We don't like her to work after she marries. I wish you would help us show her the folly of doing this.—Mrs. J. McC."

Instead of helping you show your daughter the folly of her way, I am going to be a disappointment, because I shall try to show you the folly of yours.

Her way is the modern, and the better, way. Not better just because it is modern, but better because it obviates the necessity of a long engagement. And because it gives them fresh impetus to work together. I think you are not wise, but foolish, to interfere with their very practical plan of life. It will not hurt your daughter to work after her marriage any more than it has hurt her to work before it.

Black and Blue Featured

The midseason showings of the Paris couturiers all indicated a decided trend away from the Renaissance influence and toward black and blue for winter and spring fashions. Black is most important for both daytime and evening in most of the collections, and usually has some contrasting color for trimming or accessories. Sometimes it is a white touch at the neck, more frequently a brilliant color such as sapphire blue, cardinal or green.

TWO FLIERS UP 14 MILES ON LONG HUP

(Continued from page 1)
case collapsed in folds on the side of the gondola.

ESCORT PLANES LAND
Four army planes which had followed the balloon landed in the same field. The pilots aided Stevens and Anderson in folding up the balloon and securing instruments for shipment, probably to Rapid City, S. D., where the flight began at 8 A. M. CST. today.

The fliers were jubilant.
"I believe when the instruments have been checked, they will show that we ascended between 71,000 and 75,000 feet," Stevens said.

COLD WEATHER
The landing place was about 11 miles west of Platte, S. D., and about 175 miles due east of Rapid City.

Ground temperatures were five above zero, some 20 degrees colder than the balloonists had been in their gondola at its ceiling where the outer air was 75 degrees below zero.

The flat prairie on which the balloon landed is vacant property of a school section. A main road runs adjacent to the field. Within 25 minutes after the balloon came down, more than 1,000 persons arrived in automobiles.

GIARE BALLOON

Stevens, Anderson and the army fliers departed the first arrivals to guard the balloon. This was fortunate, for within another half hour more than 5,000 curiosity seekers were on the spot and had made several attempts to rush the balloon for souvenirs. They were repulsed.

"I don't believe any of the instruments were damaged," Stevens said, "but we can't tell yet. There is no doubt we got up nearly 15 miles."

"There was no discomfort during the flight, although the humidity was high in the gondola. Most of the time we didn't know where we were."

Greece Is Hard Hit By Tremors

ATHENS, Nov. 11.—UP—A severe earthquake was felt today, centering in the Philippias region of Epirus on the East coast. Several houses were reported destroyed and inhabitants were panic-stricken.

CONDITION UNCHANGED

SAN FRANCISCO, Nov. 11.—UP—Doctors at the Letterman General Hospital this evening reported the condition of Major General Hunter Liggett, famed World War officer, as "unchanged." The widely known veteran is given small chance of ultimate recovery.

ter that make it dynamic.

YOU'D FACE PROBLEMS

"The days through which we are now passing seem to be fateful days. In some ways the future is uncertain. At the same time the future is largely in the hands of the youth of today. Therefore what youth does, today and tomorrow, will have telling effect for generations to come. Things are in a plastic stage now; old institutions, ways and customs have changed, and change is to be for the better. There must be careful thought, keen insight, moral and spiritual principles brought into play."

"The leaders in other days in our Western world were steeped in Scripture. In former generations men read and knew their Bibles and at periods of crisis such men gave leadership and guidance. Cromwell, Wilberforce, Washington, Lincoln are only a few of many that might be named. As leaders of other times received light and leading from the Book so may modern youth, the leaders of tomorrow."

Youth loves the hero and is challenged by the heroic. The Bible furnishes many names of those who qualify as heroes in the true sense. Joseph, Moses, Gideon, Samuel, David, Amos, Isaiah, Jeremiah and Paul are only a few of the Bible's great men. Youth should know these characters and come to emulate them."

Youth is idealistic and has a natural desire to do something worthy and constructive in life. In the Book of Books is pictured the outstanding idealist of all time, the young man, Jesus of Nazareth, and the challenge that he gave to remake the world may furnish the task which modern youth is seeking.

Again, youth needs inspiration. I great daring and noble personal living. Others have found it and I gladly testify that I have found it in the pages of the earth's greatest book, the Bible."

FOUR DIE IN WRECK
WAUKA, Oklahoma, Nov. 11.—UP—Sudden death in the form of a speeding truck came to two mothers and two children as the highway north of here tonight. The truck crashed in a car automobile, containing two families and not a one of the 12 persons involved escaped injury. Two other children had lost their skulls.

Trade With Nations In League Will Be Suspended By Edict

(Continued from page 1)

The note to Egypt differed, because although Egypt has adopted sanctions, she is not a League member. The Italian minister protested verbally to the Egyptian government Saturday.

It Duce spoke briefly but with blunt forcefulness from the balcony of the Venice palace to a throng gathered to commemorate King Victor Emmanuel's birthday.

ADDRESSES CROWD

After reviewing armed forces from the back of a tall charger, the dictator mounted to the balcony outside his office and addressed the throng.

"The forces you have seen this morning with all their weapons and especially in their spirit, are ready to defend Italy's interests in Europe. 'Africa or anywhere,' he shouted.

He was interrupted by a blast of steam, factory whistles and church bells marking the hour of noon. He smiled good-naturedly, waving his arm to indicate the signals were more powerful than his voice.

TO SETTLE ACCOUNTS
When the clamor ceased, Mussolini concluded:
"In only one month we have regulated two old accounts and the remainder will be settled later."

Apparently he referred to the recent occupation of Addis and Makale, averaging 39-year-old defeats.

It Duce then turned abruptly and strode back into his office.

For nearly two hours previously he had reviewed a parade of 35,000 picked men representing all branches of Italy's armed forces. He wore the uniform of a Fascist militiaman.

Second Twin Is Taken By Death

Death on Sunday claimed Karen Lea Turley, infant daughter of Mr. and Mrs. Leslie E. Turley, of 250 Bishop avenue, West Side. Her twin brother, Robert Jan Turley, died last Friday.

Funeral services were held for the Wilson & Kratzer chapel yesterday with cremation at Berkeley.

Armistice Day Program Held In This City

(Continued from page 1)

America's participation in the world war, the speaker praised President Roosevelt and citizens who have taken steps to assure our citizens that this nation will not become involved in another war.

PROGRAM AT PARK

The program at the park included addresses by the municipal band, invocation by Rev. J. Irving Rhoades, of the First Christian church, a solo by Harry Bart, accompanied by H. J. Shaw, a tribute to those in honor of the war dead, "Taps" by Eugene Tommy, and a salute to a squad of the U. S. S. Overton, presented by Rev. M. H. Crotty and selections by the city band.

Marcello was introduced by Commander John Kinsley of the Richmond Post of the American Legion.

PARADE IS HELD

The parade down Macdonald avenue was led by colors and a color guard from the United Spanish War Veterans, Grand Marshall Mayor W. W. Scott, policeman, a detachment from the U. S. S. Overton municipal band, fire department and city officials.

Following were veteran organizations, including the nearest colors of the group and the VFW drum corps; women's auxiliaries; the Young Men's drum corps, color guard and uniformed band; civic and fraternal organizations; postal employees; junior drum corps; school and a mounted division from San Pablo, Pinole and Redwood. Automobiles and commercial vehicles brought up the vanguard.

Two Injured In Motorcycle Crash

Two persons were injured in motorcycle accidents in Richmond on Sunday.

Louis A. Thompson, 32, of 42 South Twelfth street, incurred a fractured right leg when his motorcycle overturned on East Richmond avenue. At a scene Thompson, wife of the injured man, was thrown clear of the wreckage and escaped injury.

W. J. Christman, of 1186 Glen avenue, Berkeley, suffered cuts and bruises when his motorcycle struck a pile of rock on East Richmond avenue.

Shearer Returns

IN CUSTODY of two Sacramento county officials, William B. Shearer, right, 74-year old cashier of the state treasurer's office, arrived in Sacramento to face criminal charges of misappropriating \$24,000 in state funds.

Officers And Men Of Destroyer Overton Are Given Welcome

(Continued from page 1)

SHORT TALKS

Short talks were given by Lieutenant Commander E. D. Walbridge, commander of the Overton, and other officers. Lieutenant J. G. Whitehead, Lieutenant W. D. Kelly and Ensign J. J. Blum.

The Overton arrived in the Richmond harbor Friday morning and was greeted by a large committee of civic leaders in which city officials and members of Commerce members were prominent. The officers and men were active in yesterday's Armistice day celebration, being present in the parade and also at the exercises at Memorial Park at which Attorney Leo Marcello delivered the address of the day.

ETHIOPIANS TO HIT REAR OF INVADERS

(Continued from page 1)

Should such strategy materialize, it would jeopardize success of the whole Italian Ozaden campaign. The speed with which General Graziani's troops have poured up the Webbe Shibil and Fafan valleys, following the occupation of Gora, had then would work against the invaders.

70 KILLED IN REVOLT

LONDON, Nov. 11.—UP—Ethiopian prisoners and deserters told Italian officers that 70 Ethiopian soldiers were killed in a revolt near Narar and another 70 executed for mutiny, the Exchange Telegraph Agency reported today from the southern Ethiopian front.

CARAVAN IS TAKEN

ADDIS ABABA, Ethiopia, Nov. 11.—UP—Italian native troops today captured an Ethiopian caravan of 300 camels many laden with booty from Kas Helle Selassie Gugs's Makale palace—near Selafat, south west of Makale. It was reported here.

Fifty Ethiopians accompanying the caravan were routed and two captured.

The Exchange Telegraph correspondent with the Italian northern army reported the above incident with variations as follows: "A column of Askaris engaged in a fierce hand-to-hand battle with a strong Ethiopian camel caravan guard south of Makale. The Askaris won only after arrival of reserves, whereafter the Ethiopians fled, leaving 20 dead, 10 prisoners and 200 camels captured."

"An Italian plane discovered the caravan proceeding toward Bat Mariani and dropped a message to the Askaris. After a night-long march the Ethiopians overtook the camels. The Ethiopians entrenched themselves on a hilltop. An Italian officer led a bayonet charge resulting in hand-to-hand fighting. The Ethiopians were winning until reserves arrived."

MR. AND MRS. FRANK MOORE, of Coalinga, are the parents of a son born Saturday, at a San Francisco hospital. Mrs. Moore is the former Evelyn Cunan of Richmond.

Of course, I'm just
getting them in case
the boys should call—

They do say they're milder and taste better—
and I've heard tell they satisfy
